SUPERFOODS

WE ARE OBSESSED WITH SUPERFOODS

At Purella, we aim to democratize healthy eating by empowering people to take care of themselves with high-quality, nutritious products. Our passion for **SUPERFOODS** became the foundation of our brand as we believe in the transformative power of incorporating nutrient-rich ingredients into our daily diets.

By offering a wide range of products that embody the essence of **SUPERFOODS**, we aim to inspire and motivate everyone to embrace a balanced and mindful lifestyle. Our carefully curated selection meets all your needs throughout the day, whether you are enhancing your meals with single **SUPERFOODS** or **SUPERFOODS MIXES**, brewing a comforting cup of herbal goodness with **SUPERHERBS**, reboosting with **SUPERSHOTS**, or indulging in a healthy **BAR**, wholesome breakfast **MUESLIS**, or **GRANOLA**.

SUPERFOODS

Purella's **SUPERFOODS** offer the highest nutritional value, providing a rich source of essential vitamins and minerals. Our range includes functional products such as dried and powdered fruits, seeds, and spices, carefully selected to enhance your daily meals with both convenience and health benefits.

Committed to the highest standards, we search for ECO-certified raw materials and rigorously testing them for gluten content. Sustainability is at the core of our process - from responsible sourcing and ethical farming to manufacturing and final delivery. At every step, we ensure premium quality and environmental responsibility.

PROTEIN BARS

CRUNCHY LINE

Discover our line of **CRUNCHY PROTEIN BARS**, designed for those looking for a light, crunchy texture in every bite. These bars combine high-quality protein, superfoods, and a colorful, flavored protein coating to deliver both great taste and balanced nutrition and **LOW GLYCEAMIC INDEX**, independently tested. Enjoy a satisfying crunch as you fuel your body and delight your senses.

All our protein bars were tested on finished products by an independent institute and achieved a low glycaemic index (GI <55). A low GI is associated with slower carbohydrate release, helping maintain steadier blood-glucose levels and may support longer-lasting satiety. Suitable for consumers who monitor blood glucose and follow a low-glycaemic diet.
